

TREMPROOF AMPHIBIA

Multi-Layer, Hydro-Reactive Waterproofing Membrane That Self-Heals and Self-Seals to Resist Water Seepage and Migration

Product Overview

TREMProof Amphibia waterproofing membrane is self-healing, self-sealing and self-repairing. It has three active layers - a watertight EPDM barrier, an active core with the ability to seal when penetrated and an active barrier which seals the overlap and helps resist lateral movement of water. Also, a non-woven fabric layer promotes the mechanical adhesion of the membrane to the concrete.

TREMProof Amphibia waterproofing membrane is designed for use over lagging on blindside walls, below-grade walls, pile caps, grade beams, under slab and buried forms such as elevator pits.

Features & Benefits

- Self-healing, self-sealing and self-repairing features reduce time required for detailing
- Highly resistant to hydraulic load and acceptable for use in hydrostatic conditions
- Active layer self-seals overlaps and helps resist water from spreading.
- Exceptional elongation and crack-bridging characteristics helps deliver extreme durability
- Can be exposed to harsh weather & construction environments offering project schedule flexibility
- Resists aggressive natural ground agents and is usable in the presence of salt water
- Can be applied in cold temperatures expanding the time window for installation

Product Components

TIGHT BARRIER

Watertight layer is highly resistant to hydraulic load

CORE

Expanding safety layer self-seals and self-heals punctures

ACTIVE BARRIER

Hydro-reactive layer for self-sealing overlaps

GRIP

Non-woven geotextile layer fastens to concrete

Product Details & Accessories

ITEM	DIMENSIONS	WEIGHT	AREA	PACKAGING
TREMproof Amphibia Membrane (Large)	1.8 m x 20 m	47 kg	36 m ²	Polybag Wrap
TREMproof Amphibia Membrane (Small)	0.9 m x 10 m	12 kg	9 m ²	Polybag Wrap
TREMproof Amphibia Grip Tape	6 cm x 20 m	2kg	20 LM	Carton

TREMproof Amphibia Grip Tape

TREMproof Amphibia Grip Tape is a double-sided, synthetic rubber composite membrane tape that seals the seam overlaps during installation. This butyl tape bonds strongly to the TREMproof Amphibia membrane, while the fleece facing enhances the tape's ability to adhere to concrete.

Tremco Construction Products Group (CPG) represents the combined power of brands including Dryvit, NewBrick, Nudura, Willseal, and Tremco, along with Tremco CPG affiliates Flowcrete, illbruck, Nullifire, Vandex and Euclid Chemical.
