

TREMproof FBM Single Sided Tape

Single-Side Pressure Sensitive Adhesive Sealed Tape

DESCRIPTION

TREMproof FBM Single Sided Tape are manufactured utilizing a cross-laminated membrane as the carrier, with a special polymer self-adhering layer applied to both upper and lower surfaces. Additionally, the upper adhesive layer surface is coated with a weather-resistant particles. Possessing a remarkable adhesive force to various surfaces, alongside outstanding weather resistance, aging resistance, and water impermeability, this product, when combined with TREMproof FBM membrane, can establish a robust waterproofing system to effectively prevent potential leakage. The structure of TREMproof FBM Single Sided Tapes is as follows:

APPLICATION

The product can be used for sectional repairs, sealing penetrations in mechanical fixed covers, sealing angular points, and reinforcing the sealing of overlapping edges in TREMproof FBM applications.

INSTALLATION

1. Use a marking pen to identify the reinforced sealing areas, then remove any loose particles from the sheet surface with a metal brush.
2. Cut the adhesive tape to the appropriate length, shape it into a round or oval form, and apply it to the reinforced repair area.
3. Apply pressure to the tape using a hand pressure roller while removing the release liner to ensure reliable bonding.

PACKAGING

TREMproof FBM Single Sided Tape:
Overall Thickness: 0.8mm
Width: 80mm
Length: 15m/roll

WARRANTY

Tremco warrants its Products to be free of defects in materials but makes no warranty as to appearance or colour. Since methods of application and on-site conditions are beyond our control and can affect performance. Tremco makes no other warranty, expressed or implied, including warranties of MERCHANTABILITY and FITNESS FOR A PARTICULAR PURPOSE, with respect to Tremco Membranes.
